

# JUSTIN MOSES

## WELCOME OUR NEW DIRECTOR OF CULTURE & ENGAGEMENT AND THIS WEEK'S FRIDAY FEATURE

Justin comes to us with five years of experience as a Culture Warrior with his former company where they were nationally recognized by Inc. Magazine as one of the 50 Top Workplaces. He has also started a culture networking group in Nashville, bringing professionals from different organizations that understand the importance of having a great company culture and share a passion for doing better work.

While this is a newly created position for T&C, his mission is to drive thought leadership, strategic direction and implementation of company wide culture and engagement initiatives across the organization. The focus is designing, developing, implementing and evolving cultural initiatives that shape and shift T&C's culture to make it a true differentiator for our team, our clients, our prospects, and our community.
